HT6					

Other Info

KS3 Art follows the National Curriculum guidelines. The projects cover a range of artistic disciplines including painting and drawing, sculpture, print making and ceramics. Within each project students are taught to develop practical skills and look at the work of a variety of contemporary and traditional artists. Students develop their own ideas and responses to the given themes.

KS4 Art is optional and students will choose to study GCSE Art and Design (Art, Craft & Design). GCSE Art and Design is a full course, single qualification covering a wide range of skills, media and processes including the use of ICT (Photoshop, Premier.)
