## LS/US Curriculum

### Social Education (RJ)

Social Education is a subject that most pupils find inspiring. Each lesson is flexible and child led. Outcomes are put in place, however if pupils have issues, lesson outcomes are adapted to support pupils current concerns and emotions. Students are aware that Social Education is a space for sharing with confidence in the knowledge they can be supported by staff and peers without fear of judgement and retaliation. The lessons and topics are designed to support students' mental well-being and develop emotional understanding and skills in a positive, relaxed environment. Use of therapeutic strategies is available for any students with needs (e.g. weighted blankets, music, sensory stimulus)

Basic game Communication Social Etiquette Baseline of Social Skills	Local History Discussion of historic event impact and current affects	Reading and Script Vocal confidence building Valuing others' contributions	Reading and Script Vocal confidence building Valuing others' contributions	Making confident choices of topic Delivering choices to friends/peers Confidence building in speaking and listening	Making confident choices of topic Delivering choices to friends/peers Confidence building in speaking and listening
